PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building end-to-end web applications using React.js, Node.js, Express.js, MongoDB, JavaScript, TypeScript, and REST APIs. Strong foundation in AWS, Linux, Docker, CI/CD, SQL, OOP, DBMS, Operating Systems, and Computer Networks with practical experience in authentication, database design, real-time communication, debugging, troubleshooting, and secure application development. Familiar with SDLC, Agile methodologies, cloud computing, and collaborative development. Solved 200+ DSA problems in C++.

INTERNSHIP

MERN Stack Development – Internship Training, Lovely Professional University Jun 2024 – Nov 2024

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js following REST API and modular development practices.
- Implemented frontend components, backend APIs, CRUD operations, database integration, authentication, and responsive user interfaces.
- Strengthened practical knowledge of JavaScript, Git, API testing, debugging, and end-to-end web application development.
- Collaborated on application development tasks, practiced version control, identified and resolved development issues, and followed software development best practices.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Java, SQL

Frontend: React.js, Redux, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT, WebSocket.io, WebRTC

Databases: MongoDB, SQL, Schema Design, CRUD, Database Design

Cloud & DevOps: AWS, Linux, Docker, CI/CD, Nginx, Cloud Deployment

Tools: Git, GitHub, Postman, Cloudinary, Vercel, Render, AWS

Core: OOP, DBMS, Operating Systems, Computer Networks, DSA, SDLC, Agile, Debugging, Troubleshooting

PROJECTS

Employee Attendance Management System [\[Live Demo\]](#) [\[GitHub\]](#) Nov 2025 – Mar 2026

MERN Stack — Multer — Helmet — Node-cron — Bcryptjs — React-router-dom

- Implemented JWT authentication with role-based access control (Unlimited Employees, 4-Admin, 1-Super Admin).
- Designed MongoDB schemas supporting GPS tracking, selfie uploads, attendance rectification, and audit logs.
- Built attendance workflows including selfie verification, GPS validation, approval/rejection system, and remarks.
- Developed analytics dashboard using Chart.js for attendance trends, employee statistics, and working hours.
- Added Excel export, role-based filters, secure uploads, responsive UI with Tailwind CSS, and optimized frontend state management.

Quick Chat & Call Web Application [\[Live Demo\]](#) [\[GitHub\]](#) Jun 2025 – Jul 2025

React.js — Node.js — Express.js — MongoDB — WebSocket.io — WebRTC — JWT — Cloudinary

- Developed a real-time communication platform using WebSocket.io and WebRTC, supporting instant messaging and browser-based audio calling with 900+ concurrent connections.
- Implemented secure JWT authentication, including login, signup, protected routes, session handling, and role-based access control.
- Built real-time features including typing indicators, online/offline status, read receipts, instant notifications, and media sharing.
- Designed REST APIs and MongoDB schemas for users, conversations, messages, and media, integrating Cloudinary for image uploads and implementing real-time event handling and debugging.

CERTIFICATIONS

- DSA Self-Paced (C++ / Java) – [GeeksforGeeks](#)
- Backend Development Course – [Physics Wallah](#)
- SQL (Structured Query Language) – [Great Learning](#)
- (Full Stack Web Development) – [GeeksforGeeks](#)
- CompTIA Linux+ XK0-005 – [Cybrary](#)

EDUCATION

Lovely Professional University	2021 – 2025
B.Tech in Computer Science and Engineering	CGPA: 6.7
Hetauda School of Management	2019 – 2021
Higher Secondary (11th–12th)	CGPA: 7.1
Shree Adhunik Rastriya Secondary School	2017 – 2018
Secondary Education (10th)	CGPA: 8.1
